SAN FRANCISCO GENERAL HOSPITAL FOUNDATION

is dedicated to promoting research, education and care for all at San Francisco General Hospital and Trauma Center. Each year, nearly 100,000 patients are treated at The General, which includes 20% of the city's inpatient care. A comprehensive medical center, The General provides quality health care with compassion and respect to patients that include some of the city's most vulnerable. The General is also the only provider of trauma and psychiatric emergency services for San Francisco and northern San Mateo County. In addition, The General is one of the nation's top tertiary academic medical centers conducting clinical training and research.
